

Gold Coast, Australia Business Profiles

METSTRADE 2026 | 17 - 19 NOV

The Gold Coast is one of Australia's most established marine industry centres, home to more than 500 marine businesses spanning advanced manufacturing, refit and repair, marine technology, design, professional services, and superyacht support. This mature and highly connected ecosystem has earned a global reputation for innovation, capability, and quality.

The businesses featured in this delegation represent the depth and diversity of the Gold Coast marine sector and are attending Metstrade 2026 to build international partnerships, explore new commercial opportunities, and strengthen connections across the global marine industry. We invite you to connect with our delegation and discover how the Gold Coast's world-class expertise, infrastructure, and collaborative industry network can support your business and investment objectives.

Rib Force Inflatables

Rib Force Inflatables APAC is a Gold Coast-based distribution partner with a proven track record bringing premium marine brands to the Australian market. We hold exclusive Australian distribution rights for AB Inflatables, Sur Marine and Aurora, and are one of the largest Mercury Outboard dealers on the Gold Coast. Our onsite workshop, dedicated fitout bays and two-story showroom support pre-delivery preparation, customisation, servicing and genuine after-sales support. We understand the compliance, servicing and logistics requirements of importing marine products into Australia, with the facilities and reputation to represent a brand from importation through to the customer.

Target Connections: Boat manufacturers, electric propulsion providers, marine accessory suppliers and trailer manufacturers.

Marine Solutions Australia

Marine Solutions Australia (MSA) is an Australian marine engineering and technology company based at Gold Coast City Marina & Shipyard and The Boat Works on the Gold Coast. MSA provides specialised marine equipment, engineering and lifecycle support across the recreational, commercial and superyacht sectors. Capabilities include marine generators, watermakers, windlasses, cranes and davits, stabilisers, thrusters, and hydraulic, electrical and mechanical systems. MSA combines premium international marine brands with Australian engineering and field-service capability, from supply and installation through commissioning, maintenance, overhaul and ongoing technical support. The company is focused on strengthening OEM and shipyard partnerships, developing skilled Australian marine technicians, and expanding service and distribution capability nationally and internationally.

Target Connections: International manufacturers, OEM suppliers and shipyards seeking Australian distribution, installation, technical service and aftermarket support partnerships for premium marine equipment and onboard systems.
